

# Multi-National Travel Plug

## with Surge Protection

273-1445

OWNER'S MANUAL — Please read before using this equipment.

### ! IMPORTANT !

If an icon appears at the end of a paragraph, go to the box on that page with the corresponding icon for pertinent information.

-  — Warning
-  — Caution
-  — Note
-  — Important
-  — Hint

### CAUTION

- Use this Multi-National Travel Plug only with 110-220 VAC dual-voltage electronic devices, or you need an extra voltage converter.
- Surge protector indicator represents the following surge protection status.  
Indicator on — In protection status.  
Indicator off — Power surge received, surge protector overloaded.

### NOTE

#### Operation

- Disconnect the travel plug from the AC outlet when you are not using it.
- Some devices operate slower when used in countries that provide 50Hz AC power. (The U.S. and Canada operate at 60Hz AC.)
- Many countries have unstable voltage conditions that might prematurely shut off your device. This does not mean that your device or the travel plug is malfunctioning. If this happens, disconnect the travel plug from the AC outlet.
- The travel plug contains a surge protector. When the orange surge protector indicator lights, the surge protector is working properly. If the indicator does not light, the surge protector has failed and you should buy a new travel plug.

#### Outlet Configurations

- For countries that require adapter **E**, you will need a foreign adapter plug attachment, such as RSU 11650116.

Thank you for purchasing a RadioShack Multi-National Travel Plug with Surge Protection. Your plug lets you use dual-voltage notebook computers, CD players, hair dryers, travel irons, and other important personal dual-voltage personal items, almost anywhere in the world. Most AC-powered electronic devices sold in the

## OPERATION

See "Outlet Configurations" to determine the AC voltage and outlet configuration for the country you are in. Then set up the converter as required.

### Europe and the Middle East

Use the plug with two round pins marked **EUROPE**.

- Lift the plug by the two round pins until it clicks into place. The internal latch between the plugs locks automatically.
- When you're finished using the plug, push the pins back into the base and click it into place.

### Australia and New Zealand

Use the plug with two flat blades marked **SO. AMERICA-AUST./N.Z.** on one end of the travel plug.

- Press the buttons on the side of the travel plug and slide them all the way up to engage the plug.
- Press and slide the buttons back to retract the plug.

### England, Africa, Singapore, and Hong Kong

Use the plug with three pins (two thick horizontal blades and one plastic ground pin) marked **U.K.** on the other end of the travel plug.

- Press the buttons on the side of the travel plug and slide them all the way up to engage the plug. The latch between the plugs locks automatically.
- Pull the plastic ground pin up from the front of the adapter and click it into place.
- Press and slide the buttons back to retract the plug, then push the plastic ground pin back.

United States and Canada have an AC plug with two flat blades and operate with 110 or 120 volts AC power. Other countries use different AC outlet arrangements power voltages. The travel plug also helps to protect all the connected electronic devices from damaging power surges. 

Once you have determined the correct outlet configuration:

- Plug the adapter into the AC wall outlet. The orange lamp lights.
- Plug the electronic device into the AC outlet on the travel plug and turn on the device. 

## SPECIFICATIONS

Input .....	90 to 250VAC
Power rating .....	10A, 250VAC, 2500watts 15A, 125VAC, 1875watts
Maximum Surge Current .....	6000A
Maximum Clamping Voltage .....	775V peak
Varistor Voltage .....	423 – 517 V
Maximum Dissipation Joules .....	175 J

Specifications are typical, individual units might vary. Specifications are subject to change and improvement without notice.

## OUTLET CONFIGURATIONS

Type A 	Type B 	Type C 
Type D 	Type E 	

In some countries the voltage systems vary in different regions. For these countries, check with local authorities for the area you are in to make sure voltage system is not specified below 220 volts.

Limited Ninety-Day Warranty

This product is warranted by RadioShack against manufacturing defects in material and workmanship under normal use for ninety (90) days from the date of purchase from RadioShack company-owned stores and authorized RadioShack franchisees and dealers. EXCEPT AS PROVIDED HEREIN, RadioShack MAKES NO EXPRESS WARRANTIES AND ANY IMPLIED WARRANTIES, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO THE DURATION OF THE WRITTEN LIMITED WARRANTIES CONTAINED HEREIN. EXCEPT AS PROVIDED HEREIN, RadioShack SHALL HAVE NO LIABILITY OR RESPONSIBILITY TO CUSTOMER OR ANY OTHER PERSON OR ENTITY WITH RESPECT TO ANY LIABILITY, LOSS OR DAMAGE CAUSED DIRECTLY OR INDIRECTLY BY USE OR PERFORMANCE OF THE PRODUCT OR ARISING OUT OF ANY BREACH OF THIS WARRANTY, INCLUDING, BUT NOT LIMITED TO, ANY DAMAGES RESULTING FROM INCONVENIENCE, LOSS OF TIME, DATA, PROPERTY, REVENUE, OR PROFIT OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, EVEN IF RadioShack HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

In the event of a product defect during the warranty period, take the product and the RadioShack sales receipt as proof of purchase date to any RadioShack store. RadioShack will, at its option, unless otherwise provided by law: (a) correct the defect by product repair without charge for parts and labor; (b) replace the product with one of the same or similar design; or (c) refund the purchase price. All replaced parts and products, and products on which a refund is made, become the property of RadioShack. New or reconditioned parts and products may be used in the performance of warranty service. Repaired or replaced parts and products are warranted for the remainder of the original warranty period. You will be charged for repair or replacement of the product made after the expiration of the warranty period.

This warranty does not cover: (a) damage or failure caused by or attributable to acts of God, abuse, accident, misuse, improper or abnormal usage, failure to follow instructions, improper installation or maintenance, alteration, lightning or other incidence of excess voltage or current; (b) any repairs other than those provided by a RadioShack Authorized Service Facility; (c) consumables such as fuses or batteries; (d) cosmetic damage; (e) transportation, shipping or insurance costs; or (f) costs of product removal, installation, set-up service adjustment or reinstallation.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
